ANTIOCH FIREMEN fight blaze at \$40,000 fire which swept the Chain O' Lakes Cleaners, Highway 21, Nov. 15. First noticed at 1:15 p.m., flames had spread throughout the storage room and office area when fire rigs arrived within 10 minutes. Heavy explosions were averted when firemen checked flames before they could reach the cleaning fluid vats. Two pumps and the Antioch Rescue Squad answered the call. Below, firemen fight flames on roof.

Lake county residents purchased \$352,770, in series E and H United States Savings Bonds in the month of October, according to Philip L. Speidel and James C. Brown, co-general chairmen of the County Savings Bond Committee.

Purchases of both series in the state of Illinois were \$27,313,057, according to T. Merle Paul, State Director of the U. S. Savings Bonds Division. This is an increase of 0.5 per cent over last October.

Millburn Farmer Re-elected 4th Time

Eric E. Anderson, Lake County farm leader of Millburn has been re-elected to serve his fourth one year term as president of the Lake County Farm Bureau.

Others elected to serve with Anderson are: Stanley Rouse, vice president; E. Elsbury, treasurer; and Walter Krumrey, secretary.

Board Studies Long-Range High School Construction

For the first time in eight years, the school board was able to operate completely in the black without borrowing additional funds.

This was the gist of a report by Norman Jedele, CPA and accountant for the High School Board, given at the Nov. 16 meeting of the board. According to Jedele, the financial position of the district is "very sound."

His report covered the fiscal year July 1, 1959-June 30, 1960.

Antioch Township High School board, far from out of the woods regarding the knotty problem of housing the district's mounting high school population, is seemingly moving in the right direction, costwise.

Quaker Plans Gradual Move To Antioch

Quaker Stretcher Co., Kenosha light industrial manufacturing firm planning to relocate in Antioch by July 1, 1961, expects the move to be gradual, according to Walter W. Block, Sr., president. The transfer should be completed by March, 1962, Block feels.

Quaker Stretcher officials stated they have asked employees to continue with the firm after its move and pointed out that Antioch is only a half-hour commuting time from Kenosha. The firm employs between 250-350 workers.

Quaker Stretcher Co., also known as Quaker Industries, manufactures trays, TV stands, chafing dishes and other housewares. It must vacate its present facilities at 2500 - 6th St., Kenosha, to make room for American Motors, which has purchased the property. Sale of this property was first announced in April 1959.

The company had searched for suitable property in Kenosha, according to Quaker officials, but could find nothing within the city limits to suit its purpose. The company needs city water, primarily for fire protection, and rail connections.

Instrumental in interesting Quaker Stretcher in considering Antioch as an ideal site were village president Murrill Cunningham and village trustees, who as early as 1955 began an intensive campaign to interest qualified light industry to locate in Antioch.

Contractor Arnold N. May, Arnold N. May Builders, Inc., of Richmond, joined in negotiations in early 1959 with a one-package plan involving site acquisition, financing and construction. (continued on page 7)

Moose Sponsor Toy Drive for Needy Children

Officers and members of the Antioch Moose Lodge have adopted a resolution to support the Moose "Operation Santa Claus" campaign by sponsoring a toy collection and distribution drive for needy children, according to Robert Avery, chairman of the lodge's Civic Affairs Committee.

Each year the Moose fraternity sponsors this program internationally in an effort to assure a "toyful" Christmas for every needy boy and girl in the United States and Canada.

Arthur Anderson, governor of the local Moose lodge, will soon announce an organized plan whereby the people of the community may contribute either new or undamaged used toys which will be distributed to the children on Christmas Eve.

A number of collection depots will be set up throughout the Township and colorful posters will clearly mark these collection depots, he said. The Moose lodge is to supply all the manpower needed for the collection and distribution of the toys.

Needy children, in homes, hospitals, whose names will be obtained by the lodge from recognized authorities, will receive these toys, Anderson said. All of the toys will be distributed in the local area.

"We want this to be very much a local project, for our own needy children," Robert Avery said.

Off To Record Breaking Start

The grand opening of Antioch's newest retail establishment, the Ben Franklin store, last week set a record for other 2500-odd Ben Franklin retailers throughout the country to shoot at, according to word received here by Chester Dubas, owner-operator.

"Customer volume was the largest of any store in the history of the Ben Franklin organization," Dubas reported. "This is a credit to stature of Antioch as a shopping center in the northern Illinois lakes region," he said.

Dubas and his crew, busy re-ordering, stocking and handling the continuing volume of customers were enthusiastic over the opening Thursday, Friday and Saturday, Nov. 17-19, and expressed appreciation to residents for their response.

Summer Camp Proposed for Band Members

Establishment of a summer band camp for members of Antioch's High School's band has been proposed by Joseph Rush, head of ATHS music department.

Appearing before members of the board of education at their monthly meeting Nov. 16 at the high school, Rush proposed the band camp program as a means of concentrating summer band practice into a one-week period immediately prior to the fall semester.

As recommended by Rush, the program would involve 5 days of concentrated band and choral activity by an estimated 150 students of the high school band at an established music camp on Lake Bloomington (Ill.). The camp is under the direction of the University of Illinois and operates on a 12-month basis.

Rush estimated the total cost of the camp as approximately \$2,850. Of this, Antioch school authorities would assume the cost of transportation and the salary of one choral director during the period. Remaining expenses would be assumed (continued on page 7)

High School Girls Open Toy Campaign

Members of the Girls Athletic Association of Antioch High School today issued an appeal to residents to lay aside those discarded and damaged toys.

The Association is now in the midst of collecting toys to give to needy families in this area during the holiday season. Meetings will be scheduled in the weeks ahead to allow GAA members to repair damaged toys, it was announced.

In charge of the toy campaign is: Jan Latham, GAA president; assisted by Joan Wagner, vice president; Dee Stillson, secretary; and Judy Rudolph, treasurer. Class representatives are: Emily Reinchenbach and Penny Camphausen, senior; Judy Rosquist and Marilyn Moran, juniors; Mary Jane White and Jane Strang, sophomores; and Janice Truelson and Betty Liddle, freshmen.

Sponsors are Miss Nary Donovan and Miss Gladys Brooks.

Charter Issued To Antioch Group

A non-profit organization, East Loon Lake Shores Improvement Association, RFD 2, Antioch, is among incorporators listed by Secretary of State Charles Carpenter. Listed as incorporators of the improvement group are Gordon Wold, Mrs. Helen Brown and Chester Jermakowicz. Correspondent is Gordon E. Wald.

At the same time Carpenter announced dissolution of East Loon Shores Club and Women's Club of East Loon Lake Shores, both of Antioch.

Now considering the third general building plan, latest board thinking involves a new plant appreciably below the \$1,000,000-plus of Plan No. 1, and somewhat under the estimate of \$800,000-plus of proposal No. 2.

According to the board, the current school plant was designed to handle some 600 students, can handle up to 700. Educated projections place the district's high school population at approximately 1100 by the late '60's.

Plan No. 3, as considered by the board at the Nov. 16 meeting at the high school, would accommodate some 450 additional students. This plan envisions a new plant located in front of and parallel to the existing school, facing Main street, and a new facility immediately behind the existing gym. The Main street portion of proposed plant would be connected to the existing structure by corridors.

Facilities of the proposed plant would include 11 academic classrooms, three laboratories, one department office, eight restrooms, a cafeteria-kitchen equipped to handle 400 students at one sitting, library, study hall, and all-purpose room consisting of rest rooms, health-education facilities, concession area, physical education stations, locker-shower area, band room, storage area. These last facilities would be in the new structure adjacent to the existing gym.

Under the proposal, certain remodeling and alteration would be done to the existing school plant including garage and storage facilities, and an analysis of heating and ventilating facilities.

Total new construction, under preliminary plans drawn up by architect Gilbert A. Johnson, Rockford, Ill., would total approximately 53,000 square feet.

Possible construction of a railroad underpass under the Soo line giving safe access to the 25-acre athletic field laying east of the school was discussed by the board. Negotiations will be resumed with the Soo line concerning the underpass. Location of the installation would be south of the site to be occupied by Quaker Stretcher Co.

Members set Dec. 4 for a board (continued on page 7)

Parley on Possible Conference Members

Representatives of four suburban conferences met last week in Barrington to continue discussions of conference memberships, according to reports.

Represented at the meeting were administrative school officials of the Northwest Suburban, North Suburban, Tri-County and Little Seven conferences.

Considered in discussions were finding conference homes for new high schools in Mundelein and Cary. Officials agree the conference situation will become more acute as new high schools are constructed to handle the mounting number of students.

Mundelein High School already has scheduled games in the Tri-County Conference; Cary has not been included in conference competition.

FAITH OF OUR FATHERS

The spirit of true Thanksgiving is manifested in graces of the faiths:

Protestant: "Bless, O Lord, this food to our use and us to Thy Service, and make us ever mindful of the needs of others in Jesus' Name. Amen."

Catholic: "Bless us, O Lord, and these Thy gifts which we are about to receive from Thy bounty, Jesus Christ our Lord. Amen."

Jewish: "Lift up your hands toward the sanctuary and bless the Lord. Blessed art Thou, O Lord our God, King of the universe, who bringest forth bread from Thy worth. Amen."

DEAR READER News Editorials

HOLY BIBLE WAS THE BEST SELLER

To one reared in a solidly religious home, the Holy Bible has always been the Number One Book, the best-seller, the font of knowledge.

Thus, it comes as a distinct shock to discover that the Holy Book is no longer the most widely distributed of all books.

Yes, it has dropped to number two among the world's best sellers, replaced in numbers by the grubby translations of the "god" of the communists, Lenin, and is even today being challenged for second-place in popularity by the written works of his contemporary, Stalin.

Our authority for this is Eugene Burdick, a professor at the University of California and co-author of the best-selling novel, "The Early American," which scores American laxity and carelessness in diplomatic relations with far eastern countries.

According to Burdick, "If the thermonuclear war never comes it is altogether probable that the contest between the communist bloc and the democratic bloc will be decided by a most pacific instrument: The book."

Burdick reveals that in uncommitted countries untold millions of children are part of a world-wide thirst for knowledge. The only literature available to them is that of communists, distributed at prices so fantastically low that even the poorest find the cost within reach. The communist regards books not as entertainment or a mere education tool, Burdick says. They are paper bullets in a weird constantly shifting and fantastically complicated battle.

A JOB WELL DONE

The dispatch with which the Antioch Volunteer Fire Department handled the \$40,000 fire last week at the Chain O' Lakes Drive-in Cleaners should be a tremendous source of gratification to all residents of this city.

The first alarm sounded between 1:10-1:15 p.m., and by 1:25 p.m. two engines of the department were at the scene of the fire some 1 1/2 miles south of town on highway 21. The Antioch Rescue Squad joined them there.

The flames, starting from an unknown cause in the storage area immediately behind the front office, threatened to spread to the potentially dangerous cleaning room located in the south wing. But within a few moments flames were brought under control by Chief Edgar Simonsen and his crews. From then on it was just a case of doing the dirty work of chopping out smoldering timbers, removing charred equipment and eating a little more smoke.

Had the flames touched the highly volatile cleaning fluid tanks the building would have gone "sky high."

The knowledge that these dedicated fire crews, serving on little other than a sense of civic duty and our thanks, are able to handle such chores as these with professional efficiency, should allow the citizenry to rest easier these cold winter nights when fire hazards rise alarmingly.

Our volunteer "smoke eaters" warrant our continued encouragement, support and thanks.

ONLY IN AMERICA

In view of the tremendous interest exhibited by the nation's press about the ailments of the lovely Miss Elizabeth Taylor, The News finds itself hard put to further refuse its columns to a subject of such widespread interest. Hereafter, then, is our considered opinion concerning the current situation in the life of that international beauty.

Only in America could a personality such as Elizabeth Taylor be the subject of a breathless blow-by-blow description of her every move. Latest episode in the over-publicized life of this beautiful, albeit sad beauty, revolves around a lengthy bout with a mysterious malady which the medical talent of England has diagnosed as meningism (an inflammation of the outer lining of the spinal cord and brain) said to be caused by teeth.

Now comes the word that Miss Taylor (Mrs. Eddie Fisher) may have to have the offending choppers removed.

This is a disaster of major proportions to those in the entertainment world... at least when such private matters are made public. For how could a raving beauty such as Miss Taylor, commanding upwards of \$1,000,000 per picture, stand up under such comments as: "I wonder if she takes them out at night?"

The wearing of dentures is, in itself, of no particular significance, as witness our many friends and acquaintances. But, if we may be so bold, Miss Taylor - don't take the word of those "furrin' doctors in the matter of teeth. And we speak from ill-fated, first-hand experience, to wit:

In the early days of WW II while training with a group of Commandos far from home and old friends, the writer had occasion to visit the camp's tooth doctor.

After the usual amenities, he probed, pushed, held and otherwise did what dentists often do. Then - "zoowie" - out came a molar.

As patients are wont to do the world over, we requested a view of the offender. Inspection revealed it to be, in our estimation, sound as a dollar. To our query in this matter, he replied - "She's right as rain, laddie, but would have caused you a spot of trouble some day. Just a bit of preventative medicine."

With this sort of philosophy, Miss Taylor, you've had it. It's just a matter of time, unless you insist a good, old USA brand of dentist have a go at making the final decision.

Letters to The Editor

Dear Editor:

Having read several articles in your paper in the last several weeks, one regarding the sewage disposal system of Antioch and the other one on the manufacturing district that the Fathers of Antioch seem to be knocking themselves out to produce, makes me wonder if they are aware of the additional load that it would impose on the sewage disposal system.

More than likely if several garages, dairies and filling stations now dumping greases and fats into the sewage disposal system would cease this practice the present system would more than likely be adequate.

Now, regarding this new proposed plant, there is more than likely plating equipment that uses water in large quantities and acids and greases and other industrial wastes that put a most uncontrollable load on a sewage disposal system.

In turn the sewage is dumped in the Chain O' Lakes water basin. Other villages do not want industrial plants in their villages, why is it so necessary that our officials should knock themselves out for something that will destroy natural benefits and resources we have in this area?

It Was a Tough Night for This Eager Cubmaster

By Mrs. Pearl Kapell

CHANNEL LAKE—The best laid plans of mice and Cubmasters certainly do gang aft a-gley. And go all to pot, too. Witness Cubmaster John Eckert of Pack 86 and his wife, Den Mother Dolores Eckert.

They had determined that this month's Pack meeting should go off smoothly. They ordered, reminded, pleaded and cajoled with all persons concerned, and to make doubly certain, scheduled a rehearsal of the meeting for right after school Friday night. The rehearsal went off beautifully. All parents cooperated and provided their sons with Indian costumes.

After rehearsal, the Eckerts drove to Antioch to get their uniforms from the cleaners. First blow. The uniforms weren't ready. John and Dolores drove home. While Dolores prepared supper, John went on a short errand. Car stalled. John couldn't get it started. After considerable time and pushing, the car started. Meanwhile, the cleaner called, the uniforms were ready. Dolores went to get them. John amused himself with the family dog. It was now 7 p.m., one hour before Pack meeting. Wrestling with the dog, John received a long scratch, deep enough to make a tetanus shot advisable.

Dolores returned home with uniforms. At 7:45, John dropped Dolores off at Pack meeting at the school house while he made a trip to the family doctor. So Lee McKinney was asked by Dolores to take over the carefully-planned presentation of awards. John finally reached Pack meeting at 9:30, too late to see any of his charges receive their awards. But in spite of everything, it was a fine Pack meeting.

The theme of the meeting was, "The World of the Future." Each youngster, as he arrived, was given a round-trip ticket to the moon, which was also a ticket for a prize, a rocket constructed by Arthur Soby and son, Ted. The scenery which provided the setting for the rocket ship was painted by Danny Kutz. The ship was won by Martin Lulofs. Refreshments, prepared by Den One, carried out the moon theme. A sign on the refreshment table proclaimed "Lunar Lunch." All refreshments were tinted green—like in green cheese.

The Pack meeting opened with the flag ceremony, performed by Den Two. Lee McKinney presented the awards for the evening. Awards went to: Bruce McKinney, Wolf badge; Sam Harris and Mark McKinney, Lion badges; Ray Frank, Bruce McKinney and Mark McKinney, Golden Arrows; Ray Frank, Bruce and Mark McKinney, Silver arrows; Douglas Runyard, Webelos badge; Bruce McKinney, Mark McKinney and Dennis McCarthy, one-year pins.

Fiftieth Anniversary awards went to six Cubs: Jimmy Ward (who was not present), Martin Lulofs, Ted Soby, Mickey Soby, Guy Trussell and Craig Patterson. Fiftieth Anniversary awards also to 13 adult leaders; John Eckert, Phillip Burgdorf, Lee McKinney, Cornelius Lulofs, Clarence Jarvis, Lorraine Lemke, Barbara Bjork, Margaret Runyard, Dolores Eckert, Grace Ganzer, John Runyard and Anita Cook. After the awards, a movie was shown the group concerning the

State Assists In Woodlot Improvement

By Leland C. Smith
Kenosha County Horticultural Agent

There is an Agricultural Stabilization and Conservation (ASC) program set up for the improvement of woodlands. This program provides cost-sharing for woodlot improvement. Cost-sharing, which amounts to 75 per cent of the cost of improvement, up to \$20 per acre. This improvement practice includes the cutting of diseased and cull trees to protect the woodlot from fire, grazing and erosion. These requirements are done in accordance with good forestry practices. The local forester works out the improvement program with the landowners.

Where fences have to be built to keep livestock out of the woodlot, cost-sharing is available for the fencing.

There are many woodlots in Kenosha County that need improvement. Woodlots used for pasture for livestock produce a small amount of forage of very low quality. It takes from 16 to 40 acres of woodlot pasture to produce the amount of forage equal to one acre of good alfalfa-brome grass. The woodlot pasture is low in protein and high in fiber. There is a good chance that many of the plants will be of a poisonous nature or will cause "off-flavors" in milk.

Besides the fact that the woodlot pasture is not good for livestock, it can also be said that livestock is not good for the woodlot. The cattle trample the tree roots and reduce the ground cover, thereby leaving the soil surface open to erosion. If the soil in the woodlot is capable of growing good pasture, clearing it for cropland would seem to be good practice. If the soil is only good for woodlots, then cattle should be removed from the woodlot.

Any landowner who is interested in this woodlot improvement practice, should contact the A.S.C. office, Room 104, in the county court house, Kenosha.

Zollek Services Held Yesterday

LAKE VILLA—Services were held at 10 a. m. yesterday at Prince of Peace Catholic Church for Paul Zollek, 74, Petite Lake Highlands, who died Sunday at St. Theresa Hospital, Waukegan, after a short illness.

Born October 30, 1886 in Germany, Mr. Zollek came to this country (Chicago) at 16. The family moved to Berwyn, Ill., where he lived for 10 years, then to Franklin Park, Ill., for 30 years. He moved to Lake Villa in 1943. He was a member of the Prince of Peace Catholic Church and its Holy Name Society.

Surviving are his wife, Anna, four daughters, Mrs. Agnes (Rudolph) Schwab, Cicero, Ill.; Mrs. Ann (Walter) Nolten, Melrose Park, Ill.; Mrs. Charlotte (George) Krakora, North Riverside, Ill.; Mrs. Gertrude (Richard) Matelske, Melrose Park, Ill. Two children preceded him in death, Charles, 1912, and Theresa Kaup, 1947.

Services were held from the Strang Funeral Home and the Rev. David Lynch officiating. Burial was in St. Joseph's cemetery, River Grove, Ill.

Hospital Fund Group Names New Officers

LAKE VILLA—George Heuer has been elected president of the board of directors of the Countryside Hospital Association for the coming year.

Elected to assist him are: Gene Walaszek, first vice president; Robert Ringa, second vice president; B. J. Hooper, treasurer; and Jane Rundgren, secretary.

Election took place earlier this month at the Lake Villa grade school, at which time association officials discussed fund raising plans for the coming year. The group serves as prime mover in a campaign to finance an adjoined hospital on property at Grand avenue and Grub Hill Rd. in Lake Villa Township.

function of the DEW Line in our country's defense system.

After the film, all Cubs and Cubmaster John Eckert and Lee McKinney donned Indian costumes for the ceremony of graduation of Cub Doug Runyard to Boy Scouts. The ceremony was symbolic of the young Indian graduating from his youthful companions to the older Braves of the Trail. Ray Atwood, Scoutmaster of Troop 88, was present to welcome the young brave into the ranks of the Boy Scouts. Den Four presented graduating member Douglas Runyard with a Boy Scout Handbook.

It was announced that next month's Pack Meeting, under the direction of Lee Franks, will have as its theme "Guiding Stars."

Courthouse Notebook—

BY LOU DUKKIN

The present recount demands and late counting of ballots cast in the Nov. 8 presidential election could be the most divisive force to descend on the United States since Fort Sumter, and it is our feeling that those who are demanding a recount on the presidential vote are doing the country a grave disservice.

It's tough to lose a close game and it is as natural to cry for a recount as it is to say "we wuz robbed" on the sports field, but the possible far-reaching effects of the present squabble over the votes demand that a halt be called.

There's got to be a better system of electing a president of these United States in this day and age. Two weeks after the election and all the ballots aren't counted yet and there is still a possibility that the results will be changed.

Of course, if they are, the Democrats will demand a recount in those states where Vice President Nixon edged Sen. Kennedy and delay an official result still longer.

It took Russ Aford, the last Democrat to be elected to a county office, a year before he was officially declared the winner in the county clerk's office and was able to take his place in the office. The county was able to function during the interim, but it is doubtful that we can risk a year's delay in the inauguration of a new President in these critical times.

The funds being raised for a recount in Illinois and in other states, might be better used conducting a study to establish voting laws throughout the nation to avoid such confusion in the future.

Judge Thomas J. Moran put on a fine display of judicial schizophrenia the other day. Judge Moran opened proceedings in his own Probate Court and then switched to the role of County Judge to direct attorneys in two separate civil actions to proceed with the selection of juries.

Throughout the day Judge Moran kept switching roles between County Judge and Probate Judge with nary a slip.

Now that he has volunteered to serve as Circuit Judge whenever needed, he can be expected to top his two-header role one of these days.

The county board of supervisors recently adopted its 1961 budget with no sign of dissent or inquiry from the public or from any other source.

In fact there was little discussion among the board members which reflects the confidence the supervisors have in their finance committee. It would be interesting to see how many people took time to check the county budget during the month it was on file in the county clerk's office.

Chances are, few of the county board members actually saw the budget and appropriation and levy ordinances on which they voted last week. Many taxing bodies are now setting up their appropriation and levies most of which will be on file for 30 days so they can be studied and changes recommended by the general public.

If the past is any guide there will be no check of these ordinances before their passage, but there will be screams of anguish again when the tax bills arrive next summer.

Illinois, according to official census figures, will lose one seat in the House of Representatives and is also due to undergo a realignment of the Congressional Districts. Any realignment is almost certain to take Lake County out of the 13th Congressional District, where it has been the tail on the Cook County dog and join it to Boone and McHenry as a separate district.

This would mean a new representative for Lake County with State Senator Robert McClory and State Representative Robert E. Coulson the most likely candidates to succeed Marguerite Stitt Church.

This could open up some interesting political possibilities two years from now.

A peacetime mission of the U. S. navy was to suppress slave traffic. On Dec. 21, 1859, the USS "Constitution" ("Old Ironsides"), under Capt. I. Nicholas, captured the slave brig Delicia.

School Districts to Study Land Transfer

WILMOT, Wis.—A petition to annex a land area from Union Free High School District here to the Lake Geneva Badger High School District at Walworth will be discussed at a meeting of Kenosha and Walworth county school meetings, Nov. 28.

This action follows failure on four occasions of Wilmot High School District to approve bond issues to improve and enlarge the school.

Some 200 residents in Randall and Wild Rose School districts petitioned the move, according to County School Supt. Margaret Gustafson.

It Takes Time and Good Appetite To Do Justice to Holiday Bird

Today's high quality birds make it easy for even the inexperienced to have excellent results. If the turkey purchased carries specific instructions for handling and cooking (on the wrapper or insert sheet), follow those recommendations. True roasting is slow cooking by dry heat on a rack in an open pan. And no water, no cover nor searing is required. Variations of this method also give satisfactory results. Whatever the method, always complete roasting in one continuous cooking period.

Follow these simple steps for open-pan, low-heat roasting:

- 1—Have bird completely clean. Rinse with cold water, pat dry.
- 2—Preheat oven to 325° F (slow).
- 3—Rub cavity of bird lightly with salt. Do not salt, if stuffed.
- 4—Fill wishbone area (neck) with

stuffing, if used.

5—Fasten neck skin to back with skewer.

6—Stuff cavity lightly, if stuffing is used.

7—Push drumsticks under band of skin at tail; or tie them to tail.

8—Place turkey on rack in roasting pan. Brush skin with fat. Place in oven.

9—If desired, baste or brush occasionally with pan drippings—especially any dry areas. Baste quickly in order not to lose oven heat. When turkey is 2/3 done, cut cord or band of skin at drumsticks.

10—Continue roasting until done. Turkey is done when meat at thickest part of drumstick feels very soft when pressed with protected fingers.

This timetable is a guide to the approximate total time.

Strawberry Man Cited by Society

A Kenosha county strawberry grower who pioneered the "pick-it-yourself" movement in the Midwest was cited by the Wisconsin State Horticultural Society at its annual banquet in Fond du Lac, Wednesday, Nov. 9.

George E. Vincent, Route 1, Genoa

City, who has one of the most unique strawberry operations in the nation, received the 1960 honor from the Society.

The Vincent family had 30 acres of bearing strawberries this summer with as many as one thousand persons coming in to pick the berries in a single day. The Vincent strawberry farm is a family operation with sons and grandchildren taking part in the management.

The family started in the strawberry pick-it-yourself business in

1938 with one acre. The operation grew until a year ago when the Vincents gave up their 40-cow purebred Holstein herd to give more time to strawberries.

Vincent has used all the latest cultural techniques including weed control, fertilizer, irrigation, mechanical plantings, and disease control.

The Horticultural Society meeting opened with a Strawberry growers meeting on Nov. 8. Wednesday and Thursday were "apple days."

Now there's one to make every body beautiful!

New Library Books Cover Varied Fields

New books added to the shelves of the Antioch Township Library range from history through adventure and genealogy, reports Marian Harden, librarian, in listing new gift books of the past week including:

The annual Book Week gift of the Women of the Moose to the Antioch Township Library is a timely book called "Hawaii, the Aloha State." Helen Bauer outlines the history of our 50th state in the first section of the book. The second section is devoted to a description of the eight major islands, and to Hawaiian traditions, scenery and economic development.

A fashion in hats in Europe profoundly affected our part of the world. It sent fur trappers into the wilderness on ruthless expeditions to find the beaver pelts from which the hats were made. In "The Savage Country," Walter O'Meara tells the story of the quest which covered the Great Lakes area and then expanded west to the Pacific. "The Savage Country" was given to the library in memory of Barney Naber.

"Searching for Your Ancestors" is Gilbert Doane's guide, for the amateur genealogist. It contains much information on what to look for and where to look, when seeking information about your antecedents. The new third edition of "Searching for your Ancestors" is available at the library in memory of Elizabeth Webb.

Careful selection of perennials can give the home owner a lovely, colorful garden with a minimum of effort. In "Contemporary Perennials," Roderick Cumming and Robert E. Instructions for the steps and the appropriate music for each dance is included in the volume. "Running a Happy Family" is a gay application of business methods to the techniques of family living. The authors, Henry and Elizabeth Swift, drew upon their knowledge of human relations to solve family problems. Barbara Gutowski, Leslie Miller United in Double-Ring Ceremony

Miss Barbara Gutowski and Mr. Leslie Miller were united in marriage by the Rev. Alfred J. Henderson at St. Peter's Church Saturday, Nov. 19, at 3 p. m.

Miss Gutowski is the daughter of Mr. and Mrs. Bernard Gutowski of Antioch, and Leslie is the son of Mr. and Mrs. Ralph Miller of Millburn.

In a double-ring service, the bride was given in marriage by her father. She chose for her wedding a floor length gown of chiffy embroidered nylon tulle over satin. The sculptured bodice was fashioned with an embroidered V neckline, with long, tapered sleeves. The wide, tiered, ruffled bouffant skirt fell into a chapel sweep. A fingertip veil of white net was held in place by a rhinestone crown. Her cascading bouquet was of Queen's Lace mums.

Mrs. Delores Stillson, sister of the bride, served as matron of honor. She wore a street length purple velvet gown with scoop neck-

line and three-quarter length sleeves, carrying Queen's Lace mums on a lace fan.

Bridesmaids Miss Patricia Gutowski, Miss Jean Benes, and Miss Dee Stillson, were costumed in identical fashion to the matron of honor. Linda and Debbie Stillson were flower girls.

Brother of the groom, Lynn Miller, served as best man. Joe and Bernard, Jr., Gutowski, brothers of the bride, and Frank Benes were ushers.

A song by Mrs. Joanne Poulos and Mrs. Shirley Gutowski was accompanied by Mrs. Arthur McGreal.

A reception was held immediately following the ceremony for 150 guests in the VFW Hall at Lake Villa.

After a honeymoon trip to Southern Illinois, the couple will be at home in Antioch after Nov. 28.

Both the bride and groom attended Antioch Township High School, and he is employed by the Good-year Rubber Company in North Chicago.

Lake PTA Sets County-Wide Meeting Dec. 1

"Scholarship" and "Character and Spiritual Education" are the two topics chosen for discussion and information by the Lake County Council of Parent-Teacher Associations at its second general membership meeting Thursday, Dec. 1, at 8 p.m. Carl Sandburg School, 855 W. Hawley St., Mundelein, Ill., will be the host school.

The Council, composed this year of 53 units of the PTA's in Lake County, offers its programs for guidance and leadership in carrying out the duties of the chairmanship in the local units.

Mrs. Elbert Tourangeau, who will lead the discussion on "Character and Spiritual Education," is the chairman of that department on the State Board of the Illinois Congress of Parents and Teachers. That the National Congress was aware of the importance of this phase of the P. T. A. program is evidenced by the choice of their theme for the year, "Strengthening the Home—Source of Our Nation's Greatness."

The Scholarship Program of the Illinois Congress of Parents and Teachers will be explained by Mrs. Robert Loudon, chairman of that department for District 26 of the ICPT. Each of the 33 districts of the ICPT awards a teaching scholarship of \$1,000 to a high school senior who has chosen teaching as his career.

Mrs. Kenneth E. Welton, president of the Council, has announced that a special meeting will be held at 7:30 p.m. prior to the Council program for the purpose of electing a member to the District 26 Director Nominating Committee. All residents of local units are especially urged to attend.

Special seasonal music on the program will be in charge of Mrs. Walter Aschenbrenner, cultural arts chairman of the Council.

TROOP 92

Troop 92 left for Camp Thunderbird near Lake Shangri-La, arriving the evening of Nov. 18 for a week-end of camping and patrolling.

After arrival on Friday, Scouts began to set up camp and hauled equipment about a quarter mile to the site, when tents were pitched and camp fires built.

Saturday, Nov. 19, was like camp life everywhere, meaning an early roll call, hearty breakfast, and preparation for inspection.

Activities in the afternoon consisted of camp work, tests for some of the boys on Tenderfoot. Toward evening, Glen Oftedahl, Jim Neyrnick, Ronald Patla and Frank Roblin came back from Den Chief Training.

Entertainment around campfires Saturday evening was provided parents by skits acted out by each patrol, followed by refreshments. Sunday morning was church call, at which Scouts in uniform attended churches of their faith. Services were followed by work on measuring and compass, followed by lunch, campbreaking and return to the Scout House.

Seek Marijuana Source in Area

LAKE VILLA—State narcotics agents visited a nearby farm recently in search of a marijuana supply on a search prompted by arrest in Chicago of two men and a woman found with the weed in their home.

The trio were seized during an investigation of the source of supply for Chicago high school students.

A check revealed that marijuana grows wild in this vicinity. It must undergo a processing similar to tobacco before it is saleable. Police authorities concur in the viciousness of smoking marijuana as a prelude to dope addiction.

Summer Camp.....

(continued from page 1)
by the Music Association and students.

Rush placed the cost per student during the camp period at \$19.

He told board members the camp could accomplish the following:

1. Give a week's concentrated practice to band and choral members where they now receive 24 hours of rehearsal through the summer.

The camp would ease the transition from summer into the "busy" fall school period, when band members work on a tight schedule of rehearsals and participation at athletic and school events.

3. The period, Rush feels, would be especially beneficial to newer members and allow the group to integrate more swiftly into a well-organized unit.

Further action was withheld pending presentation of additional information by Rush.

Board Studies.....

(continued from page 1)
staff sponsored Christmas pot-luck supper and social, beginning at 6:30 at the school cafeteria.

Present at the Nov. 16 board meeting were: Roger Prossie, Milburn Cain, Dr. Richard Ripley, pro-tem secretary serving for Ruth Seyfarth, absent; Boyd Osmond, William Brook, president pro-tem serving for Robert Denman, absent; Albert Dittman, principal; Mrs. Margaret Moor-man; and attorney Ted Larson.

Quaker Plans....

(continued from page 1)

nancing and construction of suitable facilities.

Negotiations quickened earlier this year with location of a 20-acre site bounded on the east by the Soo Line railroad tracks and on the north by McMillen road, involving land owned by the high school district, complete with immediate access to railroad facilities and within city limits. Estimated value of this new situation has been placed at \$100,000.

The site plus the fact that the State of Illinois has no income tax was a "clincher" in decision of Quaker Stretcher to relocate in Antioch, it was reported.

Quaker president Block feels that stable, home-owning employees, typical of the Antioch area, are the backbone of a successful operation, and expressed confidence the move will benefit the company and its employees. Highly industrialized Kenosha offered an adequate labor force, but some of it was transient, he disclosed. In Antioch, the firm hopes to attract workers who are solid, industrious members of the community. New faces, new ideas and new environment can't help but advance the firm which has built its business on creativeness and new ideas, according to Block.

Present quarters to be vacated by Quaker Stretcher are between 50-60 years old and will be razed by American Motors to create a parking lot. Remodeling the existing structure to fit Quaker's expanding needs would have been uneconomical, according to company officials.

The new 152,000 square-foot structure being planned in Antioch, will be of one-story, aluminum curtain wall construction for the manufacturing-warehousing section, with offices constructed of masonry and glass. A 25,000 square-foot annex will be located immediately adjacent to the main structure and tight against a proposed railroad spur.

The industrial complex will be located on the northeast portion of the 20-acre site and will involve some four acres under roof. Remaining area will be used for hard-stand parking and will allow future expansion which is expected to start in 2-3 years if Quaker Stretcher growth continues at a pace experienced in the past few years.

Site preparation began Nov. 8 and footing-foundation work is expected to get under way within 90 days, according to the Arnold N. May firm. A target date of July 1, 1961 has been set for completion of the building.

R. G. Burkhart and Associates, Chicago, are engineers for the structure.

AN OPEN LETTER TO The Customers & Residents of Antioch

Dear Customers and Residents:

We at Ben Franklin wish to take this opportunity to sincerely thank you for your wonderful response to our Grand Opening in Antioch last Thursday, Friday and Saturday.

Your friendly warm, welcome, combined with the cordial wishes for our future success expressed by the customers and fellow businessmen of Antioch, reaffirms our sincere desire to become active, contributing members of the community.

The thoughtfulness of customers who, during the hurly-burly of opening took the time to congratulate us on opening —

The many floral pieces received from fellow businessmen make us, relative newcomers to your community, feel welcome and at home —

The encouragement of customers, when they saw Ben Franklin workers speeding about their duties in an effort to handle the tremendous crowds —

The customers who, when a double line formed at one of the check-outs jokingly agreed to alternate positions in order to solve the crisis.

These and many other happy experiences during our opening days serve to making the retail trade the enjoyable business it is.

A special thanks to Mayor Cunningham for his kind assistance on our Grand Opening Day.

If, by any chance, some were disappointed in any way during those three hectic days, please drop in and let us know, and we will certainly be glad to make amends.

We are now reordering and endeavoring to keep stocks at peak levels with special trucks sent daily to restock our store.

In closing, may we at Ben Franklin again extend our heartfelt thanks. We have just heard that our Grand Opening last week was the greatest in the history of the Ben Franklin organization, and larger than any of some 2,500 other Ben Franklin stores located in all of the 50 states.

Ladies Only, You'All

What You Should Know About Our New Vice President and Lady Bird

Dear Kate:

With Lyndon and Lady Bird only a heartbeat away from the White House, you can be certain that things will never be the same in our capitol. But before I go into that I must assure you that Mr. Kennedy didn't actually tell those good folk in East Overshoes, Iowa, what he would do with baked beans and brown bread when he became president.

He wouldn't dare! But knowing that you plan on visiting Washington I feel you should be forewarned, because "English as she spoke" certainly won't be the same after four years of Lyndon and Lady Bird.

For instance when Lyndon beams at you and says "MAY AH PRESS THE FLESH?", don't squeal and blush like a silly school girl. He only wants to shake hands.

To get along with LDJ, your minimum vocabulary should be:

Abode: Wooden plank
Ain't: Sister of one of your parents.

Canada: Politician running for public office.

Cane Chew? Aren't you able to? "Cane chew understand me?"

Coat: "The judge presided over the coat."

Des Moines: They belong to me.

Granite: Concede. "He was granite a pardon by the guv'nor."

Hail: Where all damyonkees go.

Herring: "Pappy's hard of hearing."

Hominy: How much, or something all southerners dearly love to eat... corn soaked in lye which swells up like pop corn only smoother. It can be boiled, broiled, fried or thrown out. It tastes like chicken feed smells.

Grits: Not what you do with your teeth, but hominy (the eating kind)

ground up. South of St. Louis you get this with breakfast, lunch and dinner whether you order it or not. If you like chicken feed, you'll adore grits. Order a double portion and the natives will make you a colonel.

Ice cool: The place students go between grammar school and college.

Lack: Enjoy. "I lack hominy."

Mine Eyes: Salad Dressing.

Pain: A writing instrument mightier than the sword.

Hep: Depending how far south. Soldiers normally shout this when marching. But here the speaker only wants to "hep you."

Rah cheer. Where you are at.

Version: Clean as the driven snow.

Aren't those Dixiecrats awful?

Vertigo: Where is he at?

Wretched: Wretched the Lion-Hearted.

Poke: Hog. "This poke is scrumptious."

Wheel: You know the story about Jonah and the wheel.

Police: A polite request. "Police can I come with you, all?"

SEE-im-hint: Something you make sideways with.

Be that as it may, I still don't believe that Mr. Kennedy is as bright as all get out. He says "Indier" and I just know he means India. But you just can't tell these days.

By the way, hon, with Christmas coming and all, I have something that should make a hit with all the girls... how to wheedle some nice presents out of your husband. It didn't work last year with Joe; but then nothing ever seems to work with him. I'll tell you about it next week. 'Bye

Yours,

Gwen

Animal Fur Light; Mild Winter Seen

The winter will be mild because animals are not putting on heavy coats, according to Dr. N. O. Calloway of Grand Marsh Wildlife ranch, Grand Marsh, Wis., expert on wild game.

Dr. Calloway, who said animals would have thick coverings of fur if the winter was going to be severe, bases his prediction on the fact that "all the North American animals—buffalo, long-horn cattle, elk and deer have exceptionally short hair this year. Their hides are barely covered."

Wildlife Planting Blanks Available

Application blanks are available at the county agent's office, Kenosha, for ordering shrubs to be used in wildlife plantings. Leland Smith, Kenosha County horticultural agent, has announced. These shrubs provide food and cover for the many birds and animals. The shrubs are planted along fences, streams and ditch banks, in windbreaks, and the odd unused corners of farms. There is federal cost-sharing available to the landowner for the planting of shrubs. However, the owner must first sign up at the A. S. C. office in the courthouse, Smith said. Cost of the shrubs ranges from \$7.50 per thousand for multiflora roses to \$12.50 per thousand for shrubs. These shrubs can not be used for ornamental or landscaping purposes. The shrubs listed are bittersweet, blackhaw, buffaloberry, wild grape, honeysuckle, mixed crab, silky dogwood, wayfaring tree, lilac, nine-bark and multiflora rose.

Winter Months Most Dangerous For Pedestrians

The months of November, December, and January make up the greatest danger period for pedestrians, cautions the Chicago Motor Club.

In a special plea for increased alertness by both pedestrians and motorists, the motor club pointed out that pedestrian deaths rise sharply with the advance of winter and earlier darkness.

The motor club's safety and traffic engineering department said that persons over 45 years of age account for two-thirds of all pedestrian deaths, with 38 per cent of the victims over 65 years of age. In addition, the club said that nine out of 10 pedestrians killed are non-drivers who do not realize the limitations of a car and driver.

The special need for alertness during the winter months was emphasized by the fact that three out of every five pedestrian fatalities occur during hours of darkness. The motor club said that two out of three pedestrian victims are violat-

ing a traffic law or committing an obviously unsafe act.

According to the motor club, the major traffic law infraction by pedestrians is failure to cross at proper intersections. The club said that pedestrian fatalities could be cut in half if both pedestrians and motorists observed all traffic regulations and increased their vigilance on the streets at night.

The club urged motorists to make certain their car lights are operating at peak efficiency, and called on pedestrians to wear or carry something light-colored at night to help drivers see them.

Sequoit Five in Season Opener Saturday

Mooseheart 1st In 18-Game Cage Schedule

First evidence of Coach Larry Leon's rebuilding efforts will come to light Saturday night when the fast-stepping Sequoits travel to Mooseheart for their season's basketball opener.

With last year's 22-5 won-lost record a worthy challenge, Sequoit hopes are built around five returning senior lettermen, who saw limited action last year and developed winning ways as members of a strong frosh-soph quintet two years ago.

Foremost is Les Herbst, 6', rangy forward who is an excellent rebounder and an all-around court man. Others include Ed Martin, 6'-2 1/2", forward-center; Chuck Schuth, 5'-8 1/2", stocky guard; Dudley Sheehan, 5'-10 1/4", equally good at guard or forward; Brian Palenske, 5'-9 1/2", working at either forward or guard; and Brian Elliott, 6'-2", a capable performer at both center and forward.

Doubtful starter could be Ed Martin, who suffered a slight sprain in practice sessions last week. Martin figures to be a high scorer, if his activity isn't restricted by this recurring injury.

Others figuring heavily in Leon's plans include tallest man on the squad, center Denny Pogose, 6'-5 1/2"; Bob Krieger, 6'-3" Bud Dittman, 5'-10 1/4"; Joe Pleviak, 5'-7 1/2"; Bob Barnstable, 5'-8"; Jim Cain, 5'-10 1/2"; George Hogan, 5'-10"; Bill Osga, 6'; and Bob Krieger, 6'-3".

In preparation for the non-conference season opener with Mooseheart, the Sequoits stepped up practice sessions Monday after several weeks of basic ball handling. Leon plans to use a screen and roll offense and both man-to-man and 1-3 zone defense. Here are the probable starting lineups for Saturday:

Antioch Mooseheart
Palenske 5-9 1/2 G 5-10 Riggs
Elliott 6-2 G 5-9 Schmitt
Pogose 6-5 1/2 C 6-4 Ballinger
Herbst 6 F 5-11 Myers
Martin 6-2 1/2 F 5-11 Veselius

Scouts Win 78 - 52

Down Fox Lake In Second Win; Lose to Harvard

The Antioch Scouts continued their winning ways in the Land O' Lakes semi-pro league by taking their second game by 78-52 from Fox Lake Sunday in Antioch. This second win gives the Scouts undisputed lead in the 6-team circuit and marks their third court win of the season.

In the first half Antioch and Fox Lake worked neck and neck with 10 field goals each, but the margin favored the Scouts 11-4 at the free-throw line, giving them a half-time lead of 31-24. Risberg, Smejkal and Pregenzer, with 7 each, kept the Scouts up during the first half, while Connelly, with 11 points, kept Fox Lakes hopes high.

The Scouts warmed up during the second half and moved to a commanding lead by virtue of outscoring Fox Lake 47 to 28. They continued accurate at the free throw

line by sinking 17 out of a possible 19.

For the Scouts, it was Sid Parker who led the attack with 13 points, followed by Pregenzer with 11.

Antioch Scouts	G	FT	PF	Pts.
Pregenzer	6	6	3	18
Parker	5	7	1	17
Smejkal	3	8	2	14
Risberg	4	5	5	13

Fox Lake scoring was done by Connelly, 11, Newman, 10, Mach, 9, Grennel, 8, Rizzo 7, Ballister, 6 and Bettis, 1.

Standings	Won	Lost
Antioch	2	0
Wauconda	1	1
Grayslake	1	1
Richmond	1	1
Round Lake	1	1
Fox Lake	0	2

In other afternoon games, Richmond's hot-shooting Zephyrs scored

an 88-69 win over Grayslake and Wauconda downed Round Lake 75-60.

Lose to Harvard
In a non-league tilt with Harvard, Nov. 16, the Scouts lost their first game of the season in a close one, 61-76. In the game at Harvard, the Scouts were paced at half time by the locals 43-38. Pregenzer and Parker led Antioch scoring with 14 and 12 respectively.

In the second half the Scouts outscored Harvard in the field goal department, 16 to 14. But Harvard, taking its cue from previous Scout accuracy at the free throw line, dumped 10 out of 13 against 6 of 8 for the Scouts.

Top scorers for Antioch were Pregenzer, 27, Reckers, 18, Parker, 16, Gallagher, 7, and Walsh, 6.

Antioch Sophs Face Rangy Rambler Squad

Coach Roger Andrews' Antioch Frosh-Soph cagers have their work cut out for them when they meet Mooseheart's rangy underclassmen basketball team on the Ramblers' homecourt Saturday night.

In what promises to be a battle of rebounds, Sequoit frosh-soph will give away an average of several inches per man to the Mooseheart squad. Tallest probable starter will be Antioch's John Hallwas, 6-2, ranging down to young Jim Brownlee, 5-foot, 95-pounder who is slated to start at guard. Doug Lang, 6, and Chuck Miller, 6-1, are expected to give the Antioch five additional authority under the baskets.

Mooseheart's exceptionally rangy five is headed by Dave Hunden, 6-3; Harry DeCausmaker, 6-2; Bob McCreary, 6-1, in the forward line supported by guards Leslie Small, 5-9, and Dick Wuchte, 5-7.

Probable starting line-ups will be:

Antioch	Mooseheart
Brownlee, 5-0	G 5-9, Small
Kubicki, 5-10	G 5-7, Wuchte
Miller, 6-1	C 6-3, Hunden
Hallwas, 6-2	F 6-2, DeCausmaker

Hunters — Save a Rabbit's Eye and Help the State

Illinois rabbit hunters are requested this year, as last, to save an eye from each of the rabbits they shoot. The rabbit hunting season opens Saturday.

The eyes are needed by wildlife researchers. From the dry weight of the lens of an eye, the age of the rabbit it belonged to can be calculated. The study is sponsored jointly by the Illinois Natural History Survey and the State Department of conservation.

29 Seek Berths on New Mat Squad; Schedule Completed

First step in formal interscholastic wrestling competition in the Northwest Suburban Conference got underway last Friday when 29 enthusiastic aspirants reported for first practice sessions at Antioch Township High School.

Under Coach Bob Walther, prospective matmen are in for a rigorous schedule over the next two months which calls for daily practice on the mats from 4:30 to 6 p.m., except Fridays, when sessions run from 3:30 to 5:30 p.m.

Formal meets among conference teams won't be held until the 1961-1962 season, according to Walther. Matches this season will be informal and warm-ups to what conference officials hope will blossom into a full-blown sport in future years.

Coach Walther, head football coach of the Sequoits, is experienced in high school and intercollegiate wrestling, having coached the sport at Davenport High School in 1954-55-56, and before that as assistant coach at Augustana College, Rock Island, Ill., for two years.

Encouraged by Friday's turnout, he is still seeking candidates for the lightweight divisions—95, 103 and 113 pound classes, and heavyweights. Other weight divisions are: 120-127-133-138-145-154-165 and 180 pounds.
